Profile

As a junior web developer, I bring a blend of academic knowledge and practical experience to the table. Currently in my third year of Computer Science at [Antonine University], I have honed my skills in HTML, CSS, and JavaScript through coursework and hands-on projects. My journey into web development accelerated with the completion of the 2024 Full Stack Web Development Bootcamp led by the esteemed Dr. Angela Yu.

Driven by a passion for crafting seamless user experiences and leveraging innovative technologies, I thrive in dynamic environments where collaboration and creativity intersect. With a keen eye for detail and a commitment to continuous learning, I approach every project with enthusiasm and dedication. My adaptability, problem-solving prowess, and strong communication skills make me a valuable addition to any development team.

I am eager to contribute my expertise and grow professionally in a challenging and supportive environment where innovation is encouraged and excellence is celebrated.
